

THE LEADER IS

**SMARTER.
FASTER.
SMALLER.**

MEET THE
54R

Ultra Optics' 54R is heads above the competition with smarter technology and faster output, while taking up even less space!

Fully-digital control for precise and reliable process control

LMS-integrated control system to customize the coating process job by job

Coating throughput up to and exceeding 160+ lenses per hour

Two coating reservoirs provide lab optimization for standard, tint or AR jobs in one machine

THE BOTTOM LINE IS... YOUR BOTTOM LINE

With the notable improvements, it all comes down to the 54R saving you time and money.

SMARTER

Optimized intelligence with remote diagnostics, job per job customization and LMS integration.

FASTER

Speed and efficiency are critical to your bottom line. The 54R has more speed, more precision and more efficiency.

SMALLER

With a smaller overall footprint, the 54R helps maximize your valuable floorspace while reducing operating costs.

Your *Ultra* Solution

Our innovation team continues to deliver better products that are *focused on your success*.
